Die Flötenmanufaktur

E·3

The exceptional E3 alto recorder came into being as the result of a search for a unique alto recorder and the cooperation between Adriana Breukink, Geri Bollinger and the recorder manufacture K^UN·g.

The wide bore, the metal labium, the octave key for the high registers and the key system with e' foot extension provide for a full and powerful sound.

To allow for ensemble playing with modern instruments, the E3 has a strong lower register and a chromatic range of over 2½ octaves.

Discover the potential of the E3 alto recorder.

Description:

- *Powerful sound, suitable for modern orchestral instruments*
- *Chromatic intonation in A = 442Hz*
- *Octave key for high registers*
- *Key system for e', f' and f#'*
